

REPORT ON WEBINAR-3

Topic of theEvent- Current Global Trends in Pharmaceutical Process Validations- Risk Based Approach.

Date &Time of Event – January, 28, 2021, 11 AM

Hostedby- Sarojini Naidu Vanita Pharmacy Maha Vidyalaya,Tarnaka, Hyderabad

Summary

Sarojini Naidu Vanita Pharmacy Maha Vidyalaya, College for Women, (Sponsored by The Exhibition Society) organized a webinar on the topic “**Current Global Trends in Pharmaceutical Process Validations-Risk Based Approach**” on 28thJanuary, 2021.

The Guest Speaker for this webinar was Dr.K.B.Ganesh Prasad, Principal consultant from Q-Pharma consulting India, Hyderabad.

The no of participants registered 312 and attended the seminar were 500.

The programme started with the welcome address given by Asst.Prof. Mrs.S.Sirisha, inviting our guest speaker Dr.K.B. Ganesh Prasad. Prof.B.Haarika introduced the guest speaker to the participants which was followed by the session.

In the Session, Sir gave insight on identifying, controlling and monitoring various critical stages and critical parameters by risk based process control which included all stages beginning from process design, process qualification and continued process verification i.e from process development to throughout commercial manufacturing.

Sir briefed the importance of Hybrid approach which is a combination of Traditional and Quality by Design or Process Analytical Technology approach, he also stressed on the importance of 3rd stage of validation, in which manufacturing process is monitored using statistical tools and up gradation of process knowledge through Corrective Action Preventive Action program on a continuous basis.

The webinar was concluded with the question and answer session and the participants clarified their doubts regarding the session.

Finally the vote of thanks was given by Asst.Prof. Ms. Selina Sravanthi who thanked the guest speaker and all the participants for making this webinar successful.
