

## REPORT ON NATIONAL cGMP DAY CELEBRATION

**DATE: 10-10-2023**

**VENUE: SNVPMV AUDITORIUM**

**TIME: 10 AM**

National Current Good Manufacturing Practice (cGMP) Day is an annual event celebrated on 10<sup>th</sup> October across the globe to raise awareness about the importance of adhering to cGMP regulations in the pharmaceutical and healthcare industries. cGMP is a set of regulations enforced by the U.S Food and Drug Administration (FDA) to ensure the quality, safety, and effectiveness of pharmaceutical products. The celebration provides an opportunity for stakeholders to discuss advancements in the field, share best practices, and engage in activities that promote compliance with cGMP standards. For these celebrations **Dr. N. Srinivas**, Director, SNVPMV addressed the gathering and gave a talk on cGMP topic. Sir explained the significance of cGMP compliance in ensuring patient safety and product quality. It also included the impact of technological advancements, supply chain management, and the role of data analytics in enhancing product quality. Total number of participants attended for this event were around 170.

This topic mainly emphasized on:

- 1.Continuous Education:** Encourage ongoing education and training for industry professionals to stay updated with changing regulations and best practices.
- 2.Technology Integration:** Embrace innovative technologies and data-driven approaches to enhance the quality control and manufacturing processes within the pharmaceutical industry.
- 3.Collaboration:** Promote collaboration between regulatory authorities, pharmaceutical companies, and healthcare providers to create a unified approach to cGMP compliance.
- 4.Awareness:** Increase awareness about the importance of cGMP compliance among the public to build trust in the pharmaceutical industry and ensure patient safety.

**Dr.T. Mamatha**, Vice Principal, SNVPMV talked about the importance of Quality Assurance department importance in cGMP compliance and usage of QBD best practices related to cGMP implementation.

**Dr.B.Haarika**, HOD of Pharmaceutics explained about the relation between Formulation research and development department and quality control department to support cGMP compliance networking and building professional connections.

**Interactive debate:** Several debates were conducted for students to interact each other covering a wide range of topics related to cGMP compliance. These workshops provided a platform for students to exchange knowledge and experiences, discuss emerging trends, and learn about the latest regulatory updates.

National cGMP Day serves as a significant platform for the pharmaceutical and healthcare industries to come together, exchange knowledge, and reinforce their commitment to cGMP compliance. The event's success underscores the importance of adherence to cGMP regulations in ensuring the safety and efficacy of pharmaceutical products. It is crucial for stakeholders to continue working collaboratively to advance quality in healthcare through cGMP compliance and maintain public trust.
