**REPORT ON THE ROOT CAUSE ANALYSIS: THE CONCEPTS OF
PROBLEM SOLVING IN PHARMACEUTICAL INVESTIGATIONS WITH
SOFTWARE MODELS**

Date & Time of Event – 30th August 2022, 3:25PM

Hosted by - Sarojini Naidu Vanita Pharmacy Maha Vidyalaya, Tarnaka, Hyd. Supported by – Indian Pharmaceutical Association – TS Branch.

Sarojini Naidu Vanita Pharmacy Maha Vidyalaya, College for Women, (Sponsored by The Exhibition Society), in association with IPA – TS branch has organised a seminar on the topic “The Root Cause Analysis: The concepts of problem solving in Pharmaceutical Investigations” on 30th August 2022, 3:25PM. The Guest Speaker for the seminar was Dr. Srikonda Venkateswara Sastry, Vice President, Myovant Sciences, Brisbane, USA.

For this seminar, the numbers of participants attended were about 200 & other college faculty were 8.

At first brief introduction of our college was given by Dr. T. Mamatha, Vice Principal, SNVPMV followed by a prayer song by Saipreethi & Naveena, of B.Pharm IV sem. Then welcome address was delivered by Dr. B. Prabha Shankar, Chairman, SNVPMV & introduced guest speaker Dr. Srikonda Venkateswara Sastry. Introduction of the speaker was given by Dr. T. Mamatha, then followed by the talk.

Sir has started his talk by quoting that “One skill set doesn’t help”. He went on to say that RCA (Route Cause Analysis) process is foundation of robust pharmaceutical quality system through Fish- bone diagram. Sir emphasized on some problem-solving terminology like proactive actions, reactive actions & also explained several models such as DO IT2, FIND IT, FIX IT, DMAIC, PDCA etc.

He mentioned about the only drug available, “Anti plasmin” which is a tissue plasmin activator used for ‘strokes’ treatment. Sir has also explained about corrective action process – which includes 5 steps:

1. Define the problem.
2. Starting problem with the help of Pivot tables, Run chart, Flow charts.

3. Methods for identifying causes.
4. Collecting the data.
5. Analyse the data.

He also briefed about the Pycnometry calculations. Finally, sir has ended his presentation by that "Have integrity in whatever you do".

Felicitation of guest speaker was done by Chairman, Dr. B. Prabha Shankar, Dr. B. Madhava Reddy, Treasurer, IPA & Dr. T. Saritha Jyostna, Principal, SNVPMV.

At the outset vote of thanks was proposed by Dr. T. Mamatha. She thanked the guest speaker for taking his valuable time out of his busy schedule, the management; staff of our & other colleges, students for making this program a grand success. Finally, the program was ended by rising to National anthem.

REPORT ON ICMR-NIN VISIT

A group of 40 students from the B. Pharmacy final year was taken on an educational visit to the ICMR-NIN institution on 16th March 2023. They were specifically taken to the ICMR-NIN animal facility to gain knowledge on various species of laboratory animals, animal handling, animal feeding, and formulation of diet supplements for lab animals. The visit was led by Dr. Satyavani and Dr. Pradeep.

The students were first given an overview of the do's and don'ts of animal handling and research prospects following the students were divided into 2 batches and sent for feed processing unit and laboratory animal unit respectively.

In the feed processing unit, students were introduced to the diet plan for the animals. This diet plan is designed to meet the specific requirements for a particular set of animals. Various machines used in this facility are mixers pulverisers, pelletizes, autoclaves, weighing machines, and heavy metal detector.

The other batch of students was sent to the animal shelter unit where the animals such as mice, rats, hamsters, guinea pigs, rabbits, and monkeys were monitored for their healthy well-being and observational purposes. The experienced professionals showcased the proper technique of handling animals in the most painless method such the neck grab and tickling. The available animals are swiss albino rats (7-8 strains), hamsters, black mice, Guinea pigs, wister rats, balbic mice, etc. among them hamsters were used in a preclinical study of covid-19 vaccine (immunology studies).

Guinea pigs are used for studying /observing vit-c deficiency problems, rabbits are mostly used for testing dermatological formulations.

Black mice are used for studying diabetes.
