### Short-term and long-term Institutional Perspective Plan.

#### Short-term institutional perspective plan:

- The institute is committed to delivering high-quality education, encompassing both theoretical knowledge and practical skills.
- Focus on the holistic development of students which includes critical thinking, problem-solving, communication skills, and character building.
- The institute is committed to implementing innovative teaching methods and providing opportunities for interactive and experiential learning.
- Encouraging the faculty members to attend faculty development programs which helps them to stay updated with the latest pedagogical techniques.
- To empower students for a successful future, our institution offers a range of career development programs. These include workshops, seminars, and internships, providing students with valuable skills and real-world experience to enhance their employability.
- Our institution promotes holistic development by supporting a wide array of extracurricular and cultural activities. Students can participate in activity clubs, sports, and cultural events, fostering their talents and interests beyond the classroom.
- The institute is committed to providing a conducive learning environment with modern facilities, well-equipped classrooms, laboratories, and a library giving access to digital resources to the students.
- By encouraging students to actively participate in social responsibility and extension activities not only enriches their educational experience but also instills a sense of consciousness and empathy.
- Our institution conducts regular health camps and medical check-up drives to provide healthcare access to those who cannot afford it, thereby contributing to the well-being of the community.
- Encouraging research and innovation among faculty and students can contribute to the advancement of knowledge and the improvement of teaching methods.
