

SAROJINI NAIDU VANITA PHARMACY MAHA VIDYALAYA

(Sponsored by the Exhibition Society), Tamaka, Secunderabad

Affiliated to Osmania University, Approved by AICTE & PCI

ISO 9001: 2015 Certified Institution, NBA Accredited B. Pharmacy Course

6.4.1(2) OPTIMAL UTILIZATION OF RESOURCES

Efficient resource utilization is of paramount importance for the effective functioning and sustainability of the institute. In an era marked by financial constraints and increasing demands, optimizing resources becomes a strategic imperative.

Sarojini Naidu Vanita Pharmacy Maha Vidyalaya (SNVPMV) adopts a holistic approach that encompasses strategic planning, collaboration, technology integration, and continuous improvement for optimizing resource utilization in the institute. By implementing these strategies and fostering a culture of efficiency and innovation, SNVPMV enhances its capacity to serve its stakeholders effectively to achieve sustainable growth and excellence in the long run.

1. Strategic Planning and Budgeting:

At SNVPMV, budgeting is an annual process that is transparent, participatory, and data-driven which ensures that resources are allocated judiciously to areas that yield the highest impact on student learning and institutional development. In accordance with the Governing Rules and Regulations (GRR) of the institution, the Governing Body approves the annual budget with comprehensive strategic planning to align resource allocation with institutional goals and priorities.

2. Shared Resources and Collaborative Initiatives:

Besides the regular academic delivery for various courses, research projects are taken up in the institution for which collaboration among departments and academic units is required as the majority of pharmaceutical research activities are multidisciplinary. This practice at SNVPMV facilitates the sharing of resources such as facilities, equipment, and expertise, maximizing their utilization. Further, Joint initiatives and interdisciplinary programs at SNVPMV leverage diverse talents and resources, fostering innovation and efficiency in resource utilization.

3. Technology Integration: SNVPMV keeps the emphasis on leveraging technology for administrative tasks, teaching, and learning that helps streamline processes and reduce resource-intensive manual efforts. The

institution advocates and practices virtual learning environments, online libraries, and digital assessment tools that optimize the use of physical space and personnel while enhancing accessibility and flexibility for students and faculty. The ERP software, Tally accounting software, Google Forms and Google spreadsheets are a few such examples being practiced in the general administration and academics of the institution.

4. Flexible Scheduling and Space Management:

SNVPMV understands the importance and implementing flexible scheduling models to maximize the utilization of facilities, classrooms, and laboratories throughout the day and across academic terms. We have SOPs in place to ensure frequent assessment and documentation of the space utilization that help identify underutilized areas and opportunities for repurposing or optimizing existing infrastructure to meet evolving needs.

5. Resource Sharing with the Community:

SNVPMV engages with the local community and enables the institute to share resources, facilities, and expertise for mutual benefit. Collaborative programs, outreach initiatives, and partnerships with local organizations enrich the educational experience while maximizing the impact of institutional resources beyond campus boundaries. Several awareness camps on traffic rules, digital currency, online transactions, Women's safety and Cyber Crimes were organized in the institution in collaboration with Government departments.

6. Continuous Monitoring and Evaluation:

SNVPMV has a protocol for regular monitoring of resource utilization metrics and performance indicators that allows the institute to identify inefficiencies, bottlenecks, and areas for improvement. The said protocol includes evaluation frameworks that incorporate feedback from stakeholders and data-driven insights to inform strategic decisions and resource reallocation efforts.
