

## Need Analysis of Best Practice 2 'Outreach Practice - Serve, Learn & Lead'

The 'Outreach Practice - Serve, Learn & Lead' is a transformative initiative aimed at empowering women in pharmacy and healthcare with professional and social responsibilities. Through real-world experiences addressing community needs, this practice fosters leadership, teamwork, and communication skills among students. This need analysis aims to identify the underlying requirements driving this practice, ensuring alignment with the institution's mission of women's emancipation and societal impact.

### Need Analysis of Best Practice:

- 1. Empowering Women in Pharmacy and Healthcare:** The need for the 'Outreach Practice - Serve, Learn & Lead' stems from the imperative to empower women with professional and social responsibilities in pharmacy and healthcare. In regions like India, where societal challenges such as health disparities and gender inequality persist, there is a pressing need to equip women with the skills and experiences necessary to address these issues effectively.
- 2. Fostering Leadership and Teamwork Skills:** The practice aims to develop students' leadership and teamwork skills by engaging them in outreach activities that address community needs. With an emphasis on communication, professional values, and managerial skills, SNVPMV seeks to cultivate socially responsible and effective leaders who can contribute meaningfully to societal welfare and healthcare improvement.
- 3. Addressing Societal Healthcare Needs:** In developing countries like India, pharmacy colleges' Outreach Practices play a crucial role in addressing societal healthcare needs. Through initiatives such as health awareness programs, disease prevalence surveys, and community health camps, SNVPMV seeks to bridge the gap between the institution and the community, reducing public healthcare funding requirements and producing professionally competent, socially responsible manpower.

### Conclusion:

The 'Outreach Practice - Serve, Learn & Lead' embodies SNVPMV's commitment to holistic student development and societal improvement. By addressing the underlying needs for women's empowerment, leadership development, and community healthcare, this practice serves as a catalyst for positive change. Through strategic planning, robust community partnerships, and student-focused activities, SNVPMV is poised to continue making a meaningful impact on both its students and the communities it serves.
