## **INNOVATION ECOSYSTEM AT SNVPMV**

In the dynamic landscape of higher education, SNVPMV has emerged as a front-runner, fostering a vibrant ecosystem that fuels innovation and facilitates for the seamless transfer of knowledge. With a relentless commitment to academic excellence and groundbreaking research, SNVPMV has established a robust framework that not only encourages the creation of intellectual property but also nurtures the growth of entrepreneurial ventures through its state of art facilities. By harnessing the power of collaborative learning and interdisciplinary research, the institution has become a beacon of innovation, driving transformative changes across various sectors.

SNVPMV has been taking various initiatives to foster a culture of innovation, constantly striving to improve its infrastructure to meet the current needs of the pharmaceutical sector. Measures are taken to reduce the environmental pollution by using modern fuming cupboards, avoiding hazardous chemicals, adopting green synthetic methods of high atom economy, recycling solvents, safe disposal of wastes etc.

At the heart of SNVPMV innovation ecosystem lies its unwavering dedication to the creation of intellectual property. The institution has made significant strides in this domain, with a notable number of patents filed and an impressive portfolio of research publications in esteemed international journals. By encouraging its faculty and students to pursue groundbreaking research and providing them with the necessary resources and guidance, SNVPMV has cemented its position as a hub for pioneering intellectual endeavors.

One of the standout features of the institution is its commitment to innovation through state-of-the-art infrastructure, facilities and guidance by seasoned industry

experts. The institution serves as a nurturing ground for budding entrepreneurs and startups by providing them with the requisite infrastructure, mentorship, and networking opportunities. It ensures that promising ideas are transformed into viable commercial ventures. By championing interdisciplinary collaboration and an entrepreneurial spirit among the staff and students, with an emphasis on practical applications, the institution continues to play a pivotal role in shaping the future of various industries and driving sustainable growth and development.

Faculty are motivated to pursue R&D projects and the younger faculty are encouraged to undertake their Ph.D.'s from various Universities such as Osmania University, Andhra University, GITAM University, Annamalai University, SRM University and Anurag University, by providing necessary research facilities. The institute has association with various central and state organizations like CSIR-IICT, CSIR -CCMB, NIN-ICMR, NIPERH, OU, JNTUH KU, AU, SPMVV, TU, PU etc and several reputed industries/labs like NOVARTIS, Dr. Reddy's, NATCO, MSN, Clinsync, AMNEAN Therapeutics, AET etc.

In 2022, SNVPMV received an academic research project entitled "Multiphysics Modelling of Drug Product Manufacturing Processes" from ALTAIR Engineering Pvt.Ltd. and it was successfully completed. Recently, in the year 2023, three research project proposals have been submitted to central funding agencies like DST-SERB and CSIR, worth rupees 1 crore.

The institute is instrumental in patenting the innovations and later publishing them in reputed peer-reviewed National/International journals with good impact factor. To date, the faculty of SNVPMV have 5 granted patents (3 Design & 2 Process) and 7 published patents in Indian and UK from their innovation.
