

IPA-SF STUDENT CHAPTER SCIENTIFIC SATURDAY

Date; 15/7/23

Ipa-sf student chapter organized the scientific Saturday regarding blood donation camp

The aim of this activity was to engorge the students about blood donation and create awareness among them regarding the camp. The activity was done as part of club activity which is held on every Saturday in our college. The students were divided into the groups and topic was given to each respective groups. The student was actively involved in the chart preparation with amazing and creative ideas and was also displayed.

The topics were as following:

1. Importance of blood donation
2. benefits of blood donation
3. Tips after blood donation
4. The impact of blood donation in the community and how it help those in need"
5. The types of blood and Types of blood donation
