Professor

**Date: March 11&12,2025**

**Principal**

Dr.T.Mamatha

**Director**

Dr.N.Srinivas

**Hon.Secretary**

Sri.B.Hanumantha Rao

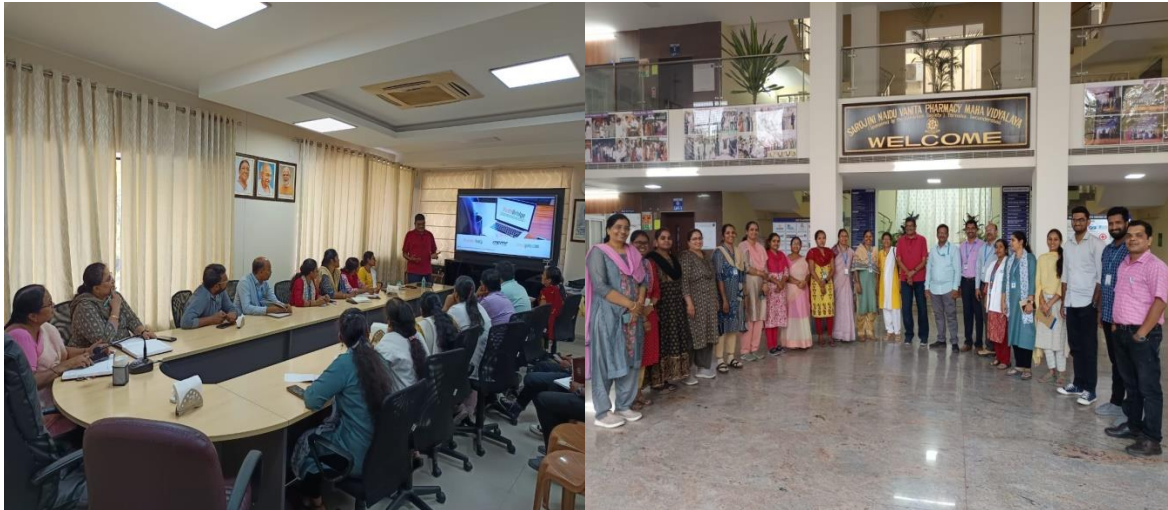

## **WORK SHOP ON TRAINING TO TRAINERS**

Two days' workshop was conducted at Sarojini Naidu Vanita Pharmacy Maha Vidyalaya on 11<sup>th</sup> to 12<sup>th</sup> March, 2025 on the theme "Training to the Trainers" by Sri Jai Naidu and Mrs Anupama Naidu from BodhBridge Educational Services Private limited

BodhBridge is an Educational Services Company working with the core objective of serving students by providing high quality knowledge based services to catalyse effective and efficient learning. BodhBridge is founded by alumni of IIT Madras, IIT Delhi and IIT Kharagpur. BodhBridge runs a popular portal called btechguru.com. BodhBridge offers a career guidance tool called My Choice, My Future (MCMF). MCMF helps individuals to understand their personality and identify suitable career clusters.

The objective of the workshop was to train the faculty mentors on how to assess their mentee students by using MCMF, which is a self-assessment tool designed to help students understand their personality and make informed career choices, particularly within the Indian context. Teachers spend significant time with students, understanding their strengths, weaknesses, and interests. This unique position makes them the first to recognize a student's potential and guide them in directions they may excel in. The mentor faculty can help cultivate aspirations early, assisting students in visualizing career goals and motivating them to work towards them. This initiative aims to empower faculty by equipping them with essential career guidance skills, enabling them to guide students toward well-informed educational and career paths.

The entire faculty (48 Nos) of SNVPMV have attended the training in two batches during 11<sup>th</sup> & 12<sup>th</sup> of March 2025. Few faculty were given pre-counselling followed by on line evaluation through my future my choice tool. Sri Jai Naidu and Mrs Anupama Naidu have analysed the results outcomes of online evaluation.

F

The faculty who attended the workshop were overwhelmed with the way it was conducted and realised how to do the student SWOC analysis using my future my choice online tool.

Date : 11-03-2025

Dear 

We appreciate your interest in My Choice My Future (MCMF). Your responses to this 72-item questionnaire will enable you gain insights about your personality. MCMF will help you use these insights to identify your strengths and areas you should work to improve.

We understand that your personality is very unique. We noticed that you have a good mix of both basic and career oriented personality traits. This report will give you a detailed insight about yourself. This report gives you personalized information about your personality and suitable or appropriate career clusters. To have a better understanding about the job you are interested in, please read the various career domains given under each of the career clusters.

We hope you enjoy reading about yourself.

All the best!!!

Best regards,  
Team  
Pearson Academy India.

**Note:** My Choice My Future is brought to you by Pearson Academy India, the services arm of Pearson Clinical & Talent Assessment (PCTA). PCTA has an exclusive partnership with Bodhbridge ESPL to offer My Choice My Future in India.

**Disclaimer:** This analysis report is generated based on the responses given by the respondent to the questionnaire items. There are no warranties expressed or implied regarding the MCMF Analysis Report of BodhBridge ESPL, including but not limited to fitness for particular purpose or accuracy or completeness or usefulness or any other results that arise out of this assessment. The results presented in the said Report are only indicative and Bodhbridge ESPL cannot hold responsibility or be held liable for the consequences following any use of them for any firm conclusive decisions by the respondent or well-wishers or acquaintances or any others .

## HOW MCMF CAN HELP YOU

The "My Choice My Future" is a powerful self-assessment tool that can help you make informed decisions about your career. Whether you are in your 10<sup>th</sup> standard or 12<sup>th</sup> standard or under graduation, you can benefit from the information reflected in your MCMF results. Understanding your strengths or dominating personality traits can help you become self aware about yourself and also identify a career path and begin your career planning and discovery process.

MCMF is a self assessment and improvement tool than a personality evaluation tool. Based on your responses to the personality assessment, the results can guide you towards a rewarding and engaging career, work activities and education programs.

### BENEFITS OF MCMF

MCMF is a self assessment tool, which will help you to:

- Gain insights about your personality
- Point out the areas that you should work to improve
- Gain better self-understanding
- Match your personality dimensions onto compatible/suitable/appropriate career
- Align your personality with your career choice
- Determine your preferred work environment
- Reduce stress levels
- Attain satisfaction in work

### ORGANIZATION OF THE REPORT

#### Section 1: Personality Traits

Describes the twelve personality traits measured

#### Section 2: Basic Personality Traits

Gives your scores on basic personality traits

#### Section 3: Career Oriented Personality Traits

Gives your scores on career oriented personality traits

Identifies your dominant career oriented personality traits

#### Section 4: Personality-Career Mapping

Maps your dominant career oriented personality traits with appropriate/suitable career clusters

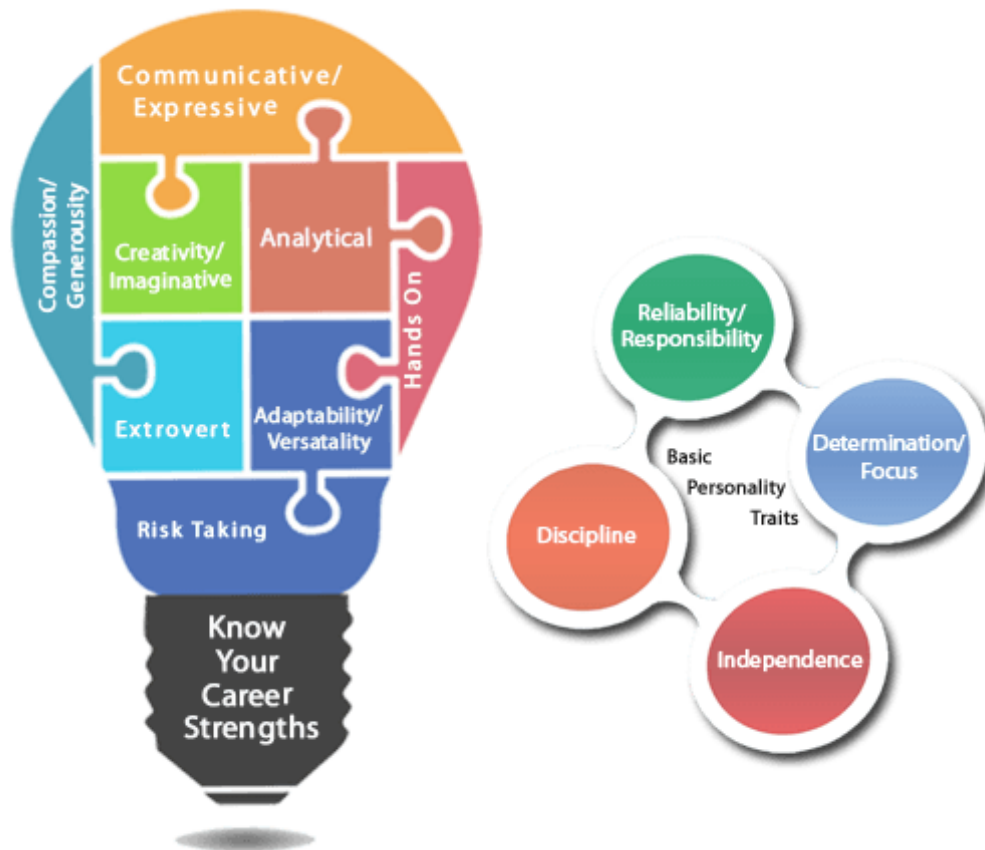

#### Section 5: Career Clusters

Describes each of the career clusters and gives an indicative list of career domains

## SECTION 1: PERSONALITY TRAITS

"My Choice My Future" (MCMF) uses your responses to the 72-item questionnaire to measure twelve personality traits. Your responses reflect your dominant/less dominant personality traits. The personality dimensions assessed are: Adaptability/Versatility; Risktaking; Analytical; Communicative/Expressive; Compassion/Generosity; Creativity/Imaginative; Determination/Focus; Discipline; Extrovert; Hands-on; Independence and Reliability/Responsibility. Various studies in the past have measured these personality traits under different nomenclature.

These twelve personality traits are classified into basic personality traits (four) and career oriented personality traits (eight). The four basic personality traits are important irrespective of your career choice. Your career interest and personality will be mapped based on the eight career oriented personality traits.

**Disclaimer:** This analysis report is generated based on your responses to the questionnaire items. BodhBridge ESPL does not express warranty on accuracy or completeness or usefulness of this personalized MCMF analysis report generated based on your inputs.

## SECTION 2: BASIC PERSONALITY TRAITS

Of the twelve personality traits measured four personality traits are classified as basic personality traits. These basic personality traits are important irrespective of the path you wish to choose. Your score on each of the basic personality traits is given below.

### YOUR BASIC PERSONALITY TRAITS SCORE

Basic Personality Traits	Your Score					
	5	10	15	20	25	30
Discipline						29
Reliability/Responsibility						28
Independence						22
Determination/Focus						18

Each personality trait is measured on certain dimensions. Below is your profile on each of the dimensions based on your response to the 72 items.

### DISCIPLINE

The table below describes the different dimensions of Discipline and your score on them.

Dimension	Description of the Dimension	Your Score				
		1	2	3	4	5
Compliance with law	An individual who follows the law.					
Respect for formalized rules	One who respects formalized rules and regulations.					
Sense of neatness and order	A self-organized person who keeps personal things and surroundings neat and organized.

**VERY HIGH:**

This indicates that the particular career cluster matches with your three or four dominant career oriented personality traits. This match (very high) would mean that you share majority of your interests, skills and abilities with that particular career cluster and probably would enjoy working in that area. If you choose these career clusters, you may enjoy your professional life and have a rewarding career.

**HIGH:**

This indicates that the particular career cluster matches with two of your dominant career oriented personality traits. This match (high) would mean that you share some

of the interests, skills and abilities with that particular career cluster and probably would enjoy some of the work. You may need to work on some aspects of your personality to build a rewarding career.

**MEDIUM:**

This indicates that the particular career cluster matches with one of your dominant career oriented personality traits. This match (medium) would mean that you share a few interests, skills and abilities with that particular career cluster and probably would have to work on other aspects required to enjoy the work.

## SECTION 5: CAREER CLUSTERS

The following section gives you the various career clusters that matches your dominant career oriented personality traits. This table also gives you the indicative career domains in each of the career clusters and an indicative list of skills and abilities, generally required for that particular career cluster.

The following table highlights your dominant personality strengths and matches it with suitable career clusters. Each career cluster is mapped with three most important career oriented personality traits. These traits are considered to be the most relevant traits for that particular career cluster. The table will indicate the personality trait/traits that you possess for each career cluster and the personality trait/traits required for that career cluster.
