REPORT ON TECHOSMANIA-2K25

Organised by the Department of Technology

Date: 24th April 2025

Venue: Osmania University

Team Lead: Dr .S. Hemalatha

Introduction:

As part of our institution's initiative to promote practical learning and innovation among students, a group of students, under my leadership, participated in the Poster Presentation competition at Technosmania . This event served as an excellent platform for showcasing technical ideas and fostering peer-to-peer learning through creative visual communication.

Student Interest and Participation:

Our team showed great enthusiasm and interest in research, design, and presentation. Motivated by a passion for innovation and learning, students eagerly took part, aiming to gain exposure and experience through external academic competition. The total number of students attended was 17 members, the number of posters presented were 9.

Preparation and Execution:

The team worked collaboratively on content development, poster design, and presentation. It was a valuable learning experience that improved our research, communication, and teamwork skills. Interacting with participants from other institutions and receiving feedback from judges further enriched the experience.

Our students, P. Haripriya , M. Pharmacy (Analysis), 1st Year, was awarded 2nd Prize for the poster titled "Advances of Medical Nanorobots for Future Cancer Treatment". In the Cultural Events, Tanmaye , Pharm D, 1st Year, showcased exceptional talent and was awarded 2nd Prize in the Singing Competition.

This achievement was a proud moment for our team and has inspired us to further contribute to advancements in healthcare technology.

Conclusion: Our participation in the Technosmania poster presentation competition was both successful and enriching. It sparked greater interest in academic events among students and served as a motivation to pursue innovation beyond the classroom. I am proud of the commitment and enthusiasm shown by our team and look forward to future opportunities for similar engagement.
