Introduction

The Eco Club of Sarojini Naidu Vanita Pharmacy Maha Vidyalaya (Co- Ed) organized an activity on **SOIL ALCHEMY (Compost Preparation)** with the objective of promoting environmental awareness and encouraging sustainable waste management practices among students.

Objectives of the Activity

- To create awareness about the importance of composting
- To educate students on eco-friendly waste disposal methods
- To promote sustainable practices and reduce organic waste
- To encourage practical learning through hands-on experience

Description of the Activity

The compost preparation activity was conducted by the students under the guidance of faculty members. The program began with a brief explanation of composting, its benefits, and its role in environmental conservation.

Students actively participated in collecting biodegradable waste such as dry leaves, vegetable peels, and garden waste from the campus. They were then guided through the step-by-step process of compost preparation, including segregation of waste, layering of organic materials, and maintenance of moisture and aeration.

Demonstrations were provided on how compost can be prepared naturally without harmful chemicals. The importance of compost in improving soil fertility and reducing landfill waste was emphasized throughout the session.

Accredited A+ Grade By NAAC

Outcome of the Activity

- Students gained practical knowledge about compost preparation
- Awareness regarding waste management and sustainability increased
- Teamwork and environmental responsibility were encouraged
- The activity fostered a sense of commitment toward eco-friendly practices

Conclusion

The compost preparation activity organized by the Eco Club was successful and informative. It helped students understand the significance of composting in environmental protection and sustainable living. Such activities play a vital role in shaping environmentally responsible citizens and should be conducted regularly.
